1 WEMYSS STREET

CAMPBELLTOWN, S.A. 5074

PHONE: 3378631

CONDITION OF SALE

NOVEMBER, 1980

Although we specialize in plants grown from seed we also have a range of plants included in our price list.

Prices are generally quoted but some items may have "ASK" following their listing. This implies that a specific item is in short supply or comes from imports that have suckers available at various times. Please be free to ask for them. If we have a sucker available from these plants we will then hold it for you.

There are three different price groups that apply to the seedlings. These refer to small, medium and half grown plants or suckers.

On receipt of your order we will send you a pro-forma invoice quoting the cost of the plants and estimated packing and freight cost. Your confirmation will then be required together with a copy of the invoice and your payment, plus your preferred form of delivery. Although this may appear a lengthy process, we feel it may avoid the disappointment of waiting for plants that are not available at time of order.

We assure you of our best attention at all times and wish you success and happiness with your plants. For any further queries or problems, please do not hesitate to contact us.

E. SCHAEFER

BROMELIAD PRICE LIST1980/81ACANTHOSTACHYS:\$ PER PLANT
