Hybrids with a Country for Origin are natural hybrids. Those with the name of an individual were produced by that individual.

Terms of Sale

- **General:** This price list cancels all previous lists. All offerings are subject to prior sale. Prices are quoted F.O.B. Carlsbad, CA. and subject to change without notice. California residents please add 7.75% sales tax.
- **Minimum Order:** \$25.00, not including freight and packing.
- **Shipping Information:**

Domestic- If paying by credit card, actual charges will be charged to your account. For orders shipped to CA, NV, and AZ please add 10% shipping charges. For all other states please add 20% of the total order. Plants are shipped by UPS unless other means are specified. Plants are shipped dry, and at least one of each species will be labeled. \$3.00 charge per box for packing and handling.

Hawaiian Customers- Please include your import permit number and include an additional \$20.00 for the Certificate of Origin.

Foreign Customers- Minimum order to all foreign countries is \$100.00. All prices are FOB Carlsbad, CA. We recommend Air Parcel Post for smaller orders, and Air Cargo for larger orders. Please provide specific shipping instructions, including phone number, airport of destination, copy of import permit, and specific mailing labels-where applicable. There is a \$20.00 charge for a Phytosanitary Certificate.
- **Payment:** Payment must accompany order by check, money order, Visa or Mastercard. Orders can be shipped COD. Please include 15% additional (a minimum \$10.00) for shipping charges, when paying by check or money order. Additional charges or credits will be issued after shipment. Allow 10-14 days for checks to clear. Phytosanitary certificates are an additional \$20.00, when required.
- **Discounts:**

Under \$150.00, net prices
\$151 to \$250, less 10%
\$251 to \$500, less 20%
\$501 to \$1000, less 25%
over \$1001, less 30%
- **Special Orders or Requests:** You may call or fax your special orders or requests anytime, and we will do our best to help you. We currently have over 400 species and more than 60 hybrids in propagation, many are not available at this time, but will be in the future. We are maintaining a computer-based want list for anyone who is interested in rare plants that we are propagating. When they are available, they will be distributed to those on the list at a first come, first serve basis.
