

HIS 'N' HERS
2112 West Carol Drive
Fullerton, California
92633

TELEPHONE (714) 525-0123

April 1, 1978

Minimum order accepted is \$10.00.

California accounts subject to 6% sales tax.

Terms: Cash, check or money order.

Postage: You will be billed for postage. If insurance or special delivery is desired, please indicate and you will be billed for the additional. All material will be shipped bare root. The supply of some plants is limited. If the plant you have requested is not available, we will refund your money unless you have listed a substitute. Plants will be shipped Air Mail First Class with the exception of those in the immediate vicinity, which will be shipped First Class Mail. Due to the possibility of cold damage to material shipped December through March, plants ordered during that period will be shipped at customers risk with additional special packing charges.

Should your plants arrive in poor condition, file a claim with the carrier immediately. We are not responsible for damage in transit.

We specialize in plants grown from seed. These plants are grown under controlled conditions, along with a regular feeding program from the time they germinate.

The seed grown plants will not be released until they have shown sturdy substantial growth and are taking on their mature look. They will all be in at least their second or third year of growth, have developed mature root systems, require only normal care, and will be ready to plant in whatever medium you might wish to use.

Plants indicating a number or letter are unidentified species or unnamed hybrids selected from our own collection to be offered because of their unusual color or markings. The use of the number or letter is strictly for our own method of inventory. A description of any of these will be sent upon request.

We offer a selection of off-shoots and mature plants, both species and hybrids. If there are plants you desire that are not shown on our list, please inquire as we have limited quantities of many plants that may be acquired by special request. As new plants are acquired, they will be added to the list.

This listing supersedes all previous prices, oral or written. These prices are effective April 1, 1978.

We ship retail only, no wholesale. *Don't heavy shipping this summer, please inquire as to the availability of plants ahead of time.*
Arla and Dick Rutledge

Thank you
Arla R
