Orders under \$20.00 add \$1.00 for packing

All plants are Florida State inspected, shipped bare root. Postage or UPS (our option) is prepaid. We do not substitute except on request. Refund will be sent for any plants out of stock. We are cleared to ship to all states including California. Burrowing nematode Cert. No. 574.

Many valuable plants (such as *Vriesea Heiroglyphica*) are not listed as it would be unwise to trust 10 years of growth to the hazards of shipping. Plan to come by. We are located one mile west of I-4 at Lake Mary exit, milepost 98.

Some time ago I purchased a large mixed lot of Vrieseas & Guzmanias, none of which were labelled. As they bloom, I find many unusual hybrids of unknown parentage. One variety has pink foliage with a very tall red feather. Another, with branched yellow spike and spotted foliage is likely a Saundersii hybrid. If you wish to try them, I will send you 3 plants of my choice for. 10.00
